

ENCLOSURE B

FOIA Request No. EPA-R5-2014-002171 Index and Privilege Log for Documents Released with Redactions

EPA redacted mapping coordinate information for locations in undated AERMOD input and output files associated with USEPA's recent review of residential manganese exposure in East Liverpool, Ohio.

The records are from the files of Jaime Wagner, Air and Radiation Division, Region 5, U.S. EPA

The redacted information is protected from disclosure by Exemption 6 of FOIA, because Disclosure of the mapping coordinate information would constitute a clearly unwarranted invasion of each individual's personal privacy.
